

Bio-Mediator

We are a distributor of life science and diagnostic products

Most of our research products can be placed under the categories of cell biology or molecular biology.

In diagnostics we have kits and reagents e.g. for infectious diseases, immunohistochemistry and reproductive medicine.

Below some of our **diagnostic suppliers**

Ansh Labs

Ansh Labs' core immunoassays are novel research and clinical diagnostic markers with potential applications in reproductive medicine, neurodegenerative disorders and oncology.

BioMed Diagnostics

Unique microbiology diagnostic devices that combine sample collection, transport and culture in a single platform.

DB Biotech

Unique monospecific antibodies for flow cytometry, IHC, WB and ELISA.

Epitope

ELISA and rapid kits for gastrointestinal, cardiovascular, endocrinology and cancer diseases.

Bio-Mediator

Reagents, kits, supplies
and instruments

CELL BIOLOGY

Addexbio

Biotinylated Reagents, Cell Lines, Cytochrome P450 Tools, Molecular Probes

Biomat

Specially coated ELISA, cell culture plates and tubes.

Biocolor

Kits to measure soluble and insoluble collagen, glycosaminoglycans, elastin, hyaluronan, cell migration rate, cell cycle phase and apoptosis

Biotium

PCR & DNA Amplification, - Nucleic Acid Gel Stains - DNA Quantitation Kits - Cell Viability & Apoptosis - Cellular Stains

Biovision

BioVision develops and offers a wide variety of products including assay kits, antibodies, recombinant proteins & enzymes, and other innovative research tools.

BQckit

They manufacture a good selection of kits and reagents in the following categories: Caspase Activity Assays - Cellular Assay Kits - Fluorescent Probes - Food Analysis Line - Oxidative stress - Protein Quantification Reagents - Transfection Line

Cell Biolabs

ELISA kits for: Cell Based Assays, Cell Signaling and Protein Biology, Infectious Disease Research, microRNA Analysis, Oxidative Stress / Damage, Stem Cell Research, Viral Expression.

Creative Diagnostics

Antibodies, viral antigens, innovative diagnostic components and critical assay reagents, hybridomas, ELISA kits.

Cytoskeleton

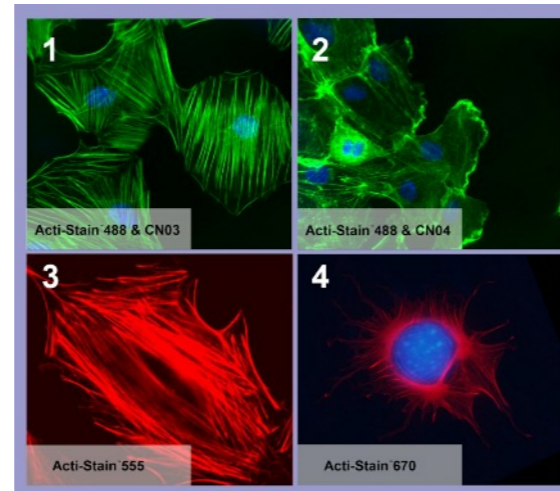

Cytoskeleton, Inc. offers a wide range of kits and products for drug screening, signal transduction and cytoskeletal research.

InCyto

New innovative micro-well plate for 3D cell culture : SpheroFilm

Medhem Express

MedChemexpress (MCE) provides a wide range of research chemicals and biochemicals including novel life-science reagents, reference compounds, APIs and Natural compounds for laboratory and scientific use.

Nanoprobes

Gold Nanoparticles, Functionalized Gold Nanomaterials, Nanogold® Labeling Reagents, Recombinant Protein Detection, Ni-NTA-Nanogold®, GoldiBlot™, Nanogold® Conjugates, AuroVist™, FluoroNanogold™, Gold Lipids, Silver Enhancement, GoldEnhance, EnzMet™, Negative Staining, Conducting Polymers, Undecagold, Colloidal Gold.

Nanovex

A wide range of services and products in the nanobiotechnology field: nanovesicles, nanoparticles, SEC columns.

Reliatech

Cytokine Reagents and kits/ angiogenic and lymphangiogenic research.

TOKU-E

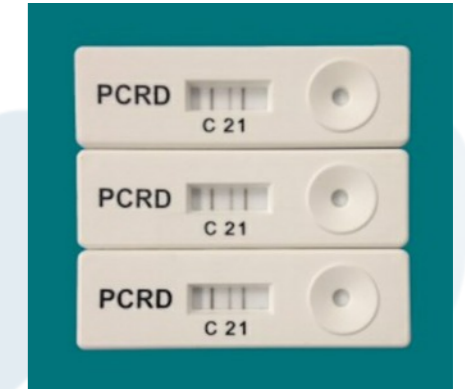

Innovative antimicrobial products for microbiology, virology, cell biology, cancer research, plant biology.

MOLECULAR BIOLOGY

Abingdon Health

Abingdon Health manufactures nucleic acid lateral flow immunoassays (NALFIA), called PCRd, which can be used as an alternative to using DNA agarose gel electrophoresis.

Bioatlas

DNA dyes, DNA Polymerases, PCR and qPCR Mixes, PCR Buffers & Reagents, Nucleotides, Electrophoresis, Ready-Mixed Buffer

BLIRT

- PCR & qPCR Reagents
- RNA Analysis
- Educational Kits
- Enzymes & Proteins
- Gel Electrophoresis

FortiusBio

FortiusBio has developed several new filter card devices to easily sample, extract, transport and eluate RNA and DNA from various matrices.

KOMABIOTECH

Protein electrophoresis, PCR reagents, transfection, DNA purification and methylation kits, Elisa kits for cytokines and immunoglobulins.

LGC Biosearch

Stellaris® RNA FISH Probes, Fluorogenic Probes and Primers, Custom Oligonucleotides, DNA/RNA Synthesis Reagents, Labeling Reagents

LGC Genomics

KASP™ genotyping - kits and services Genespin™, oKtopure™, sbeadex™, mag™ and Kleargene kits - DNA extraction kits and services
